You must have written organizational policies to support those costs.

Line (10): F.I.C.A. and Medicare - Federal Insurance Contribution Act tax otherwise known as the Social Security Tax and Medicare.

Line (10a): The Social Security Tax is computed every payroll period as 6.2% of total payroll, up to \$110,100 per employee (2012).

For further information regarding the F.I.C.A., contact the Internal Revenue Service at 800-829-1040 or refer to Publication 15 - Circular E. Calculate the WIA share of the total F.I.C.A. cost for the annual value of the contract in columns (6) and (7) respectively.

Line (12): State Workers' Compensation Insurance - This insurance is computed at a rate determined by the employer's type of business or organization. How often an employer must pay workers' compensation is based on the size of its insurance premium. All applicants are encouraged to call the National Council of Compensation Insurance (NCCI) at 800-622-4123 for technical assistance in this matter. In Columns (6) and (7) show respectively the share of this total to be borne by WIA and the total State Workers' Compensation Insurance cost.

This rate is subject to change and will be determined by the Internal Revenue Service. Check with the IRS at (800) 829-1040 to determine if your agency is exempt. An agency should also check with The Partnership to determine whether additional benefits it wishes to offer are WIA eligible expenses.
